

## ACSIS AND GIPO LAUNCH ICT OBSERVATORY FOR AFRICA

On 8 June 2016, ACSIS ([www.acsis-scasi.org](http://www.acsis-scasi.org)) and GIPO ([Global Internet Policy Observatory](#)) launched cooperation with support from the European Commission to develop the global observatory on the Internet worldwide. The observatory has a window through ACSIS website. GIPO window is permanently open through ACSIS website to inform on the Internet and ICT policies in Africa. To connect to the window click here: [Access the Dashboard](#)

M. Cisse KANE and Ms. Megan Richards, Principal Advisor, DG CONNECT during the official launch for ACSIS-GIPO cooperation (08 June 2016)

The interactive window allows users to learn and to search on all the news on the Internet in Africa. It will be nurtured by the census of existing information but also through information collection in African countries. Through an interactive form, [GIPO Africa](#), allows search queries on various Internet-related areas in Africa!

ACSIS-GIPO cooperation was launched in Brussels June 8, 2016 as part of a conference on co-designing GIPO's Observatory Tool - Bringing together IG Communities. <http://giponet.org/en/content/co-designing-gipo%C2%B4s-observatory-tool-bringing-together-ig-communities> in the sidelines of the European Conference on Internet Governance EuroDIG 2016.

The conference was preceded by a Round Table entitled : "contribution of the Global Internet Policy Observatory to" multistakeholderism "in Internet governance" in June 8, 2016 in which ACSIS took part also.
